The North Sea is Alive!

Wednesday 12 November 2008

Bar Opens: 1730 Lecture Start: 1800 Supper: 1930

Ballater Suite, Britannia Hotel, Bucksburn, Aberdeen

The North Sea has been recognised in the industry as a key player in the energy business for over 30 years and has seen many changes both in technology and Operators. Today's market can only be described as mature however dynamic, where we see many new Operators rising to the business challenge; developing marginal fields and optimising enhanced recovery technology to add the value.

Chairperson - Brian Nixon (Director of Energy, Scottish Enterprise)

Speaker 1: Bob Gray (Principal Director, Simmons - E & P Corporation Finance Team)

'The Impact of M&A activity on the future development of the North Sea'

The Majors still dominate UKCS activity despite many new entrants. Will the UKCS remain important for the majors, is significant rationalization overdue, what will precipitate it and who will replace them?

Speaker 2: Mark Maclennan (Business Development Manager, Faroe Petroleum plc)

'Growing a small E and P company in the highly competitive North Sea'

Creating opportunity through a high risk, high impact exploration strategy balanced with an increasing production and appraisal asset base.

Speaker 3: Pieter voor de Poorte (Subsea Engineer, Oilexco)

The Brenda Story – how an Operator used leading edge system technology to Optimise Enhanced Recovery in a Brown Field Development. The technology approach was to use a light weight compact manifold (approximately half the weight of a traditional manifold), multi-phase metering system, boosting pump and associated state of the art controls systems; all supplied by a single supplier.
