

The Hydrographic Society in Scotland and The Society for Underwater Technology

Present a Joint Technical Seminar & Exhibition

Metrology - what does it mean to you?

**Wednesday 3 March 2010
Hilton Treetops Hotel, Springfield Road, Aberdeen
1130hrs - 1730hrs**

Metrology is an essential part of the subsea industry - whether as part of pipeline tie-ins, subsea developments, and increasingly repair and maintenance operations. This joint SUT/THSIS half day seminar will examine the expectations, practicalities and increasing requirements being made of subsea metrology. By providing updates on the latest technologies and capabilities supported by a number of case studies, it will challenge the position and contribution which can be made by metrology in subsea operations now and in the future.

PROGRAMME

1130 - 1300 Registration, Buffet Lunch & Exhibition (continuous service)

SESSION 1

1300 - 1310 Session Chair Introduction

1310 - 1340 The Operator's Perspective - Leen Boer, Shell
